# License Revoked for Tucson-based B & M Excavating

PHOENIX, Ariz., (May 22, 2015) – On Tues., May 19, 2015, Arizona Registrar of Contractors (AZ ROC) signed a Consent Order settling eleven cases filed against B & M Excavating and Hauling, Inc. (B & M) and revoking their three contracting licenses, effective June 1, 2015.

From late-2013 to Jan. 2015, AZ ROC received ten complaints against B & M for issues related to work they were contracted to perform stemming back to late-2012 and as recently as July 2014. The complaints were received from residential property owners from Hereford, Sierra Vista, Amado, Marana, and Tucson, Arizona, and totaled \$1,073,963.62 in contractual agreements.

AZ ROC investigated each complaint and filed eight separate citations for 47 alleged issues ranging from abandonment of projects and poor work to contracting beyond the scope of their license and contracting with an individual suspended or revoked on their license.

On Tuesday, AZ ROC made official the seven page consent order; dismissing 17 counts and revoking B & M's three licenses for 30 admitted violations of Title 32, Chapter 10 of the Arizona Revised Statutes.

Three complaints remain outstanding and will continue to proceed through the adjudicative process regardless of B & M's agreeing to have their three contracting licenses revoked through this consent order.

### **Background:**

The Registrar of Contractors serves two core functions; licensing and the regulation of the licensing of contractors. For licensing, the ROC ensures contractors possess the experience, training and knowledge required in order to qualify for a license and then issues the appropriate credentials. When considering regulation, the agency works to curb non-licensed entities working within Arizona and investigates complaints made against licensed contractors regarding professional standards of their work.
