Four AZ ROC Field Offices to Close in June

PHOENIX, Ariz., (May 28, 2015) – With increasing process efficiencies and technology capabilities it is no longer necessary for Arizona Registrar of Contractors (AZ ROC) to maintain “brick and mortar” presence in several outlying areas.

AZ ROC will be closing four offices (Kingman, Show Low, Yuma and Prescott) by the end of June, eliminating three Customer Service Representative (CSR) positions. Restructuring of the Flagstaff and Tucson offices will result in the elimination of two additional CSRs (one in Tucson and one in Flagstaff).

Investigators in Maricopa and Pima Counties will use, as in the past, Phoenix and Tucson offices. Prescott and Flagstaff Investigators will have work stations in a Flagstaff location (Yavapai County Investigators will also maintain “virtual office” operations). All other Investigators will continue their “virtual office” operation.
